Interactive Video Courses are taken at the school district in a state of the art distance learning room with a distance learning facilitator present. Each college has a matching distance learning room where the professor is located. All courses are instructed by college professors located at Cayuga and Onondaga Community College. Students participate in courses with other high school students from across Oswego County. Online courses are offered through Cayuga Community College and can be taken during a study hall but must report to the distance learning facilitator located in the school district. All students are progress monitored by CiTi BOCES.

ASL 101 American Sign Language 1

Onondaga CC - 3 college credits

This course is designed for students with little or no previous knowledge of American Sign Language. Students acquire basic grammar and lexical skills that will enable them to communicate in routine social or professional situations within an authentic cultural context. Topics may include, but are not limited to, the following: biographical information, relationships, preferences, leisure activities and making plans for the future.

Delivered via Interactive Video

ASL 102 American Sign Language 2

Onondaga CC - 3 college credits

This course is a sequel to American Sign Language I. It builds upon the basic grammatical, linguistic, communicative and cultural concepts learned in ASL 101. Students learn to communicate in the context of an increasing number of daily life topics. Topics may include, but are not limited to the following: daily routines, hobbies, food, clothing and other belongings, health and emergencies, and the workplace. Prerequisite: ASL 101

Delivered via Interactive Video

BIO 208 Introduction to Environmental Sciences

Cayuga CC - 3 college credits

This course explores the human relationship with the natural environment by examining the critical issues that affect the viability and sustainability of natural resources of our planet. Natural resources, their importance, distribution, and impacts from human use and over-use are examined at local, state, national, and global levels. The course uses case studies of current-day environmental issues and their relationship to concepts of ecological, air, soil, water, energy, biodiversity, and population dynamics. Issues are examined from viewpoints of scientific theories of environmental impacts as well as human interactions and constituent viewpoints.

Delivered via Interactive Video

BIO 209 Basic Nutrition

Cayuga CC - 3 college credits

Appropriate for science majors and non-majors, also students pursuing a career in healthcare professions. Examines the fundamentals of nutrition, including nutrient composition of foods; physiological factors influencing nutritional needs; behavioral considerations related to food intake; nutrient digestion, assimilation, and storage; energy requirements; life cycle requirements; weight management; diet therapy; fad diets; manufactured food; methods used in dietary assessment and nutrition research.

Delivered via Interactive Video

BIO 217 Aquatic Science

Cayuga CC - 3 college credits

Prerequisites: BIOL 100, or 101 or high school biology. Intended for non-science majors, this course introduces students to the principles of aquatic resources management. Topics covered include physical, biological, and chemical properties of water. We will be covering the watershed concept in management decisions. Students will learn about the major available freshwater resources in the United States, both surface and groundwater. A section of the course will review marine resources and the history of fisheries management. Course content will cover the management and uses of water in the U.S. for industrial, agricultural, and drinking water supplies and the U.S. legislation that govern these uses. Students will delve into case studies of watershed management.

Delivered via Interactive Video

BUS 103 Principles of Business

Cayuga CC - 3 college credits

Overview includes foundations of American business, forms of enterprise, organizing for business, fundamentals of management, the production of goods and services, human relations, union-management relations, marketing, accounting, finance, money and banking, securities and investments, government relations and business law.

For students who desire knowledge in managing their personal finances. Topics include budgeting; saving; borrowing; home purchasing; automobile purchasing; life, auto, and home insurance; health, disability and retirement programs; estate planning; and investing.

ONLINE ONLY

HIST 101 Western Civilization I

Cayuga CC - 3 college credits

A topical approach to Western civilization addresses political, social, intellectual, and economic issues; extends beyond past politics and chronologies to increase understanding of the historical record. The course focuses on European cultures from classical antiquity to the 17th century; may extend further for in-depth historical treatment. Topics serve as case studies from which to evaluate the present.

Delivered via Interactive Video

HIST 102 Western Civilization II

Cayuga CC - 3 college credits

Surveys major developments in European history from the 17th century to the present. Some topics may extend further for an in-depth perspective. Focuses on the behavior of the many as well as the notable few. Topics serve as case studies from which to evaluate the present. Non-European peoples are of concern only as they and their histories impinge on the development of European culture.

Delivered via Interactive Video

HIT 120 Medical Terminology

Onondaga CC - 3 college credits

This course will provide a detailed study of the meaning of medical terms that relate to medical science and human anatomy. Medical specialties including pathology, radiology, and pharmacology, as well as abbreviations used in the healthcare field, will be covered. In addition to definitions, pronunciation and spelling will be emphasized.

Delivered via Interactive Video

HLTH 104 Personal Health
